

1. Send Global Corp. would like to provide both Global or Limited Global Facilities-Bases (e)(1), Global or Limited Global Resale.

Send Global Corporation will offer a variety of wholesale and retail voice, mobile and prepaid services. Send Global will also offer turnkey telecommunication business solutions consisting of safe and secure web applications that interact seamlessly with all our telecommunication services.

Our telecommunications products and services will utilize both traditional voice circuit-switched telephone networks as well as Voice over Internet Protocol commonly known as VoIP. We will offer a variety of prepaid and post-paid A-Z International and Domestic voice termination services. We allow direct interconnects or access number origination from carriers, fixed line phones and mobile devices making our services easily accessible for the end user.

Products and services sold through our web applications include prepaid wireless, calling card and an assortment of ANI recognized products. All products sold are able to take advantage of our A-Z International and Domestic voice termination routes, rates and quality.
